EXPERIENCE

Software Development Engineer Intern

Amazon.com, Inc. // Seattle, WA // 6/14–8/14

- + Designed and developed a proof-of-concept for a highly scalable internal documentation tool for Amazon's mobile shopping division and its partner teams
- + Implemented a custom JavaScript backend and a Tomcat/Spring MVC-based frontend application in conjunction with custom Amazon UI assets
- + Received "Most Amazonian" award at intern project demo

Teaching Assistant & Tutor

Amherst College CS Department // Amherst, MA // 9/13–Present

- + Answered questions and assisted during lab sessions for Introduction to Computer Science I & II (Python & Java)
- + Led individual peer tutoring sessions for Data Structures & Algorithms II

Web Assistant

Amherst College Web Services // Amherst, MA // 10/13–1/14

- + Helped design a real-time traffic indicator for the college dining hall to help students avoid long waits in line
- + Helped redesign the online campus map to be more interactive, useful, and mobile-friendly

IT Specialist

Amherst College IT // Amherst, MA // 8/13–Present

- + Provide over-the-phone and in-person technical support to the faculty, staff, and students of Amherst College
- + Make peoples' days by ridding them of technological worries

Design & Branding Intern

Sagemax Bioceramics // Federal Way, WA // 5/12–8/12

- + Designed and wrote copy for ads which were published in nationally-distributed dental magazines, exposing new clients to Sagemax's products
- + Worked with the company president to strengthen the company's visual identity across the board, implementing graphic standards for branding materials and printed documents
